Nelson and Voorhees: Mr. Nelson, in reply to Mr. Voorhees' charge of negro equality, referred him to dispatch received from a noted-Brookthe fact under Democratic rule that negroewere allowed to vote in Maine, New York and Ohio. To this Mr. V. gave the flat denial, and called for the proof, which we will now endeavor to give to him. Now the Senator forwarded this dispatch: York farmed her first constitution in 1777. the second in 1822, and the present one in 1846 The present one, after giving all exception as follows:

have been for three years a citizen of this State and for one year next preceding any election, shall have been seized and pos sessed of a freehold estate of the value of two hundred and fifty dollars over and above all debts and incum brances, and shall have been actually rated and paid a tax thereon, shall be entitled to vote."

The previous constitution had a similar clause. New York in 1824, '28, '32, '36, ling of the dispatch, and three rousing '44 and '52, went Democratic for President, cheers were given for the Democracy and during that time controlled the poir of Maine, and on motion of Duncan S. tics of the State, and they had carried the State in '44-just previous to the making of the presen constitution. But, of course, Democrats cannot be in favor of negro equality. Under the constitution of Mann. negroes are allowed to vote, and have been since 1820, when their present constitution was formed. Maine voted for Jackson from voting. Ohio formed her present an Administration officeholder, was the somewhere in the interval. Have controlled by Democrats. And yet under the constitution made by them, a person having negro blood in his veins, is allowed to vote! Now, we would ask our would be Congressian, if Democrats are they did not change this frature, so obnox ious to them? Why, when in Ma'ne, Polk beat Clay 11,341 votes, did they not abol ish negro voting there? We have taken the panes to give the facts and figures in When we put Douglas in we shall regard to this negro voting, that our Dong las friends may not be frightened by this hue and cry of "Negro Equality." The Democrats-though in power, during the existence of negro voting, in each State When we choose Bell and Everett where it is allowed, have never made a single move towards preventing them from voting; and yet every Democratic speaker in the land is bawling himself hourse shooting Negro Fquality, Abolitionist, &c., It will doubtless rain larks with the and some of their dupes really think that unless some thing is done, that they will find themselves on a par with the ne gro before they know it, and that their on-Douglas-Squatter-Sovereignty-Daniel! ----Correspondence of the Lafayette

Mr. Nelson suggested in his reply that it

would be quite as agreeable to him it his op ponent's arguments was tempered with a little more candor and dignity and the crowd evidently thought the same thing, for the remark "tnat's so" came from all parts of his audience. He followed by a well digested defence of Republican principles and a scathing review of Voorhees' posi tion-first, in supporting the Lecompton policy of the President and now in pincing himself on "my great principle." This part of his speech told plainly on Voorhees who, in his reply, fairly foamed with rage. Choice First Class Insurance. Voorhees threatened to "trot" his opponent through when he got him Fire, Inland and Life down to Sailivan county. Pertaps he will, but he certainly fatled to do it to-day The Republicans were immensely pleased with Mr. Nelson, the Democrats pronounced him a "mighty sharp talker," and they are right about it.
